

Total Productive Maintenance (TPM)

Course Objectives:

What is Total Productive Maintenance?

The course seeks to set out and enforce that TPM is a manufacturing/process led initiative that very much emphasizes philosophy. In essence it will explain how TPM seeks to reshape the organization very own potential.

What the course seeks to do is help the participants to “Tap the Hidden Capacity of Their Equipment”.

The main purpose of this course is how to expose the invisible wastes that simple destroy your equipment’s productivity and methodology.

Course duration:

5 days

Training Methodology:

1. Expert tutor input using power points.
2. Delegate discussion and involvement.
3. Case studies, Best practice examples.
4. Supportive comprehensive course manual enabling practical application and reinforcement.
5. Workshops Topics and Handouts, Power Point Presentation for each session.

Course Certificate:

MSTC certificate will be issued to all attendees completing minimum of 80% of the total tuition hours of the course.
