

Project Management Training

This course is based primarily on the Project Management Institute's (PMI®) "A Guide to the Project Management Body Of Knowledge, Fourth Edition" (PMBOK® Guide) standards and certification Process for the designation of PMP® "Project Management Professional" from PMI. It is a comprehensive course that will assist individuals in preparing for the PMI's certification exam

PROJECT MANAGEMENT EXAM PREPARATION 5 DAYS TRAINING COURSE

About PMI

Project Management Institute (PMI®) is the world's leading not-for-profit membership association for the project management profession. It was established in 1969 with six members.

Today PMI's membership surpasses half a million members and credential holders in 185 countries.

PMI's worldwide advocacy for project management is supported by globally-recognized standards and credentials, extensive research program, and professional development opportunities.

These products and services are the basis of greater recognition and acceptance of project management's successful role in governments, organizations, academia and industries.

PMI Achievements

- ❖ In **1984** PMI introduced the PMP Certification exam.
- ❖ In **1991** the PMBOK received American National Standards Institute (ANSI) certification.
- ❖ In **1999** PMI received the International Organization for Standardization
- ❖ (ISO) **9001** recognition for PMP certification.

COURSE OBJECTIVE

Project Management Professional Exam Preparation Course is based on qualifying PMP exam on first attempt. The examination for the PMI PMP credential covers a defined knowledge base outlined in the PMP Exam Specification, not just the PMBOK® Guide (although this is the basis of the qualification / exam). Our courses for the PMP certification exam cover the full spectrum of project management knowledge needed to succeed in the PMP exam supported by 100s of PMP style questions. The key difference between our courses is the way you choose to study for your PMP certification exam, not the course content. All of PMP study materials have been developed by PMP certified trainers. We guarantee to keep working with you until you pass the examination.

LEARNING OUTCOMES

Trainees will acquire the necessary knowledge and understanding required to successfully pass their PMP examination.

MSTC's PMP exam prep course is specifically designed to equip trainees with the necessary skills and knowledge to pass a difficult, multi-choice examination; most people also acquire significant useful project management knowledge to apply in the workplace.

The course framework is based on the PMBOK Guide 4th edition, key references from the PMI list of recommended reading materials and the trainee's own pre-existing knowledge and experience.

KEY DELIVERABLES

The course will:

- Assist experienced project personnel to achieve PMI accreditation.
- Assist with obtaining PMI membership (if required).
- Provide the required 35 hours of accredited project management training to apply for the examination.
- Provide a framework of information by way of references and proprietary materials to allow trainees to acquire the PMI specific knowledge required to pass the examination.
- Provide a structured framework to test trainees' knowledge on a progressive basis against PMP examination standards.
- Provide one-on-one feedback regarding performance in each knowledge area to allow trainees to focus on areas requiring improvement.
- Assist with registering to take the PMI examination.
- Assist with assessing and completing the experience section of the examination application.
- Provide on-going support through to the examination.

PMP EXAM STRUCTURE

The PMP exam consists of 200 questions made up of 175 'live' questions and 25 pre-test questions. The pre-test questions are scattered randomly throughout the exam and do not influence your score (they are there to validate the question for use in future exams). However, you have no way of knowing which questions are pre-test and which are 'live' and need to deal with all 200 questions in the same way! The current pass mark is 61%, this is an overall score from the 175 'live' questions (106 correct) there are no minimum requirements in each domain.

The structure of the exam is:-

Domain	Percent of Questions
Initiating	11%
Planning	23%
Executing	27%
Monitoring and Controlling	21%
Closing	9%
Professional and Social Responsibility	9%

WHO SHOULD ATTEND?

PMP® Candidates, Project Managers, Program Managers, Project Engineers, Project Team Members, Individuals interested in Project Management as a career choice.
